

### Lomita Payroll Exceeds \$10,000 In Two Months

#### More Than 520 Work Orders Received From Stabilization Bureau

LOMITA, April 13.—A payroll representing over \$10,649 has been received during the months of February and March by the men employed through the county stabilization bureau, according to a statement made today by Charles M. Smith, registrar of workers for Lomita.

Of this amount over \$3577 was received in the month of February and approximately \$7072 was received during the month of March.

"This large sum of money means not only a personal benefit for Lomita householders in that this money helps many homes to keep up the current bills, and it also means that the community as a whole benefits, for merchants of our town will prosper by the expenditure of this money."

"There are few factories, outside of the major ones, that can boast of a larger payroll than this," declares Mr. Smith. "All of this is due to the help of the Reconstruction Finance committee and a few public-spirited citizens."

The total number of work orders sent out during these past two months approximates 520. Of these, 193 orders were received during February and 327 orders were received during the month of March. Over 65 work orders have already been issued during the first week of this month by the employment stabilization bureau for Lomita in a single day.

This brings the total amount of work orders for the past 65 days to 585.

The amount of days worked by the men during the month of February numbers 1118 and during March, 2210, which gives a total of 3328 days worked for the past two months.

When prominent persons throughout the Southland gather to celebrate ceremonies at the east end of the San Jacinto tunnel, major unit of the Colorado aqueduct project, April 29, they will be saluted by none other than Torrance's American Legion Drum Corps in their natty white and black uniforms.

This was assured Tuesday night when the city council voted \$50 to cover transportation charges of the Legionnaires to the tunnel site near Banning. The invitation to participate in such a widely heralded celebration is considered a signal honor for the local bugle and drum boys.

Work of members of Bert S. Crossland Post, American Legion, in aiding Huntington Park authorities during the recent earthquake, was highly praised in a letter received recently from Mayor Richard T. Shultz of the stricken city.

## "To Strut Their Stuff" at Big Celebration

This was assured Tuesday night when the city council voted \$50 to cover transportation charges of the Legionnaires to the tunnel site near Banning. The invitation to participate in such a widely heralded celebration is considered a signal honor for the local bugle and drum boys.

Work of members of Bert S. Crossland Post, American Legion, in aiding Huntington Park authorities during the recent earthquake, was highly praised in a letter received recently from Mayor Richard T. Shultz of the stricken city.

### Trading Unit No. 7 Lomita Is Now Open

#### Headquarters Located In Odd Fellows Building, South Lomita

The Lomita unemployment relief, which is known as Trading Unit No. 7, opened its headquarters Monday morning in the Odd Fellows building on Redondo-Wilmington boulevard, with John Edmondson in charge as manager, Fred McClain, assistant manager, and Miss Birda Paddock, secretary and treasurer.

All unemployed in Lomita are requested to register immediately at this headquarters.

The store opened with a stock of 200 loaves of bread, 10 gallons of milk, a supply of vegetables on hand for immediate distribution. Five boxes of oranges were traded to this unit by the Torrance Veterans Relief in exchange for a bread order secured by Lomita promoters from the Sunshine Baking Company at Wilmington, which issued orders to Lomita, Torrance and Wilmington.

The unit expects to be in full operation with a large supply of food stuff, sufficient to relieve the necessities in Lomita, within a very few days.

Mr. and Mrs. S. E. Colburn and children of Wilmington were dinner guests of Mr. and Mrs. Stehman McMullen and daughter, Mildred, Tuesday evening.

Miss Florence McMaster visited at the home of her parents, Mr. and Mrs. E. E. McMaster, during the week-end.

### Abandoned Car Held By Police

Police took charge of a car loaded with miscellaneous articles which was found parked on Plaza del Amo Sunday night and drove it to the police station, where on Monday morning it was claimed by Philip Gardner, residing at Hoover City. Gardner stated to the officers here that the car had been stolen from him, but in order to check up on the matter the police held Gardner for investigation.

Later a charge of burglary was lodged against him and a preliminary hearing was held this morning.

Tools, bedding and other articles were found in the car, among them a battery which was identified by Mrs. R. L. McFarland, 1734 Arlington, as one which had been stolen from a car belonging to her son, Francis.

Police officers had watched the car for some time following a report to Sergeant John Strohs during the night that a prowler had been seen entering garages in the west part of the city. A search was made for the prowler but he was not apprehended. No one appeared to drive the car away, and after several hours of watching the officers drove it to the police station, where Gardner appeared the next day to claim it.

### Homemakers' Bureau

upon how much of a variety of other materials we add to it. A supper of clam chowder with corn bread would be most inviting to a family or guests.

Oysters, too, make grand soup, and are equally delicious fried, escalloped or deviled.

It isn't seeking and using new and unusual foods which make our meals interesting, but rather the smart, tasty seasonings we use in our everyday foods that distinguish us as marvelous cooks. The following recipe is an example of delicate simplicity:

**Macaroni Salmon au Gratin**  
(This recipe is suited to other canned fish)

2 cups macaroni or spaghetti.  
1 cup canned salmon  
2 cups medium white sauce  
1/2 lb. cheese  
Few grains cayenne  
Few grains dry mustard

Boil the macaroni or spaghetti in boiling salted water until tender; drain. Separate the salmon into pieces, but not too small. Season the white sauce with cayenne and mustard in addition to salt and pepper; combine with the cheese, salmon, macaroni and blend carefully and not too thoroughly. Pour into a greased baking dish and sprinkle with buttered crumbs. Bake in a moderate oven (350° F.) until heated through, or about 30 minutes.

The Safeway Stores Homemakers' Bureau is offering, in conjunction with its other services, a new cook book, "Recipes You'll Enjoy," by Julia Lee Wright. The book comes in a choice of colors: Chinese red, sea foam green or lemon yellow, tissue wrapped and packed in a matching box. Send your order with \$1.00, plus 15c shipping cost (25c east of Denver), to Julia Lee Wright, Safeway Homemakers' Bureau, care of Safeway Stores, Inc., Box 469, Oakland, California.

### Newspaper Advertising Pays Declares Bank of America

A California newspaper carrying a Bank of America advertisement reached Malacatan, Guatemala, and was consulted by a local merchant who wished to form a banking connection in the United States. He addressed a registered letter to "Bank of America National Trust & Savings Association, 410 Banking Offices in 243 California Cities," and it was delivered to the bank's main office in Los Angeles.

"Our bank has long and consistently been a large user of newspaper space," said Dr. A. H. Gianini, chairman of the bank's general executive committee. "Today we are carrying display advertising in 338 California newspapers. Newspaper advertising is one of the best investments we have ever made."

### Cities to Join In Celebrating Start of Work

#### Huge Demonstration to Mark Beginning of Aqueduct Building

Plans were being laid today in each of the member cities of the Metropolitan water district for co-operating in the staging of the huge Colorado river aqueduct progress celebration which is to be held April 29 at Cabazon near the site of the San Jacinto tunnel.

The cities represented in the district and definitely slated to participate in the celebration are Los Angeles, Anaheim, Beverly Hills, Burbank, Compton, Fullerton, Glendale, Long Beach, Pasadena, San Marino, Santa Ana, Santa Monica and Torrance.

In addition, it was pointed out by John G. Bullock, chairman of the public relations committee of the district board of directors, that many other communities, not members of the water organization, have offered to co-operate in the celebration.

"The pledges of assistance which we have received from Southern California cities outside the Metropolitan water district are striking evidence of the general realization that it is extremely fitting at this time for us to tell the world of this tremendous project we are undertaking," Bullock said.

Two applications for positions in the water department as soon as the city completes its new water system were received and filed. J. R. Winters applied for the position of superintendent and Al Price applied for that of field superintendent.

A telegram from Assemblyman John T. Rawls was read, assuring the city of his support of the proposed 60-day moratorium on taxes. The council had previously wired Assemblyman Rawls endorsing the bill now before the state legislature advancing the delinquent due on county and city taxes from April 20 to June 20.

A communication from the county health department requested the city engineer to submit estimates of the cost of laying sidewalk between the American Legion clubhouse and county health and welfare center property line.

Council accepted a deed from the Del Amo Company for the extension of Madrona avenue opposite the proposed reservoir site. Unemployment crews are working on the extension of the street.

City officials were invited to the next meeting of the California League of Municipalities to be held April 20 at West Covina. The division of gasoline taxes and the adoption of a uniform beer ordinance are among the topics to be discussed.

### Around the Council Table

#### The city's cash is nearly gone, Councilman Ludlow, chairman of the finance committee, informed the city council Tuesday night.

Whereupon the city dads authorized the registering of warrants. City Treasurer Harry H. Dolley reported that there was only \$16,000 remaining in the municipal treasury.

On recommendation of City Engineer Leonard, the map of Tract 18216, McDonald Tract, was "approved as to form." A firm of subdividers contemplate the sale of the property in half-acre lots, and the tentative approval was requested to facilitate carrying on necessary negotiations with county officials.

### Pair Wed Tuesday Present License Four Years Old

Jennings B. Gattin, of the U. S. navy, and Miss Irene Gonzalez, 737 West Fourth street, San Pedro, were married Tuesday afternoon in the office of Justice of the Peace John Dennis.

"You've had that license some time," said the court clerk, Mrs. Bertha Wilcox, who witnessed the ceremony, as she was making out the papers to be filed with the county clerk. The date on the document was May 23, 1929.

"Well, you see," said the groom, "I've been stationed on an all barge in the Great Lakes, at Chicago, since then." "It's a long time not to have changed your mind," put in the bride slyly.
